guitar, vocals

ALEXANDER BRATSCHI
lead vocals, bass

INFO

Rooftop Sailors are among the hottest stuff on the scene and deliver truly memorable shows: an impactful, high quality live performance with sexy and intoxicating Swagger Rock.

Above all, Rooftop Sailors is characterized by one thing: A tight and simultaneously wild live performance. Catchiness combined with powerful riffs and charismatic voices in a modern fashion force the audience to surrender to the uniqueness of the moment. The joy of playing is written all over the faces of the four lads from Thun as they pound the stage into the ground.

After a tour through Germany and England (2018) and playing numerous openairs in Germany and Switzerland, the band's constant presence got them gigs at e.g. the Gurtenfestival 2019 or the "Rock & Blues Cruise" 2022 and led to regular airplay on various radio stations like SRF3, Rete Tre and Couleur 3.

During the global pandemic, the band did not become inactive at all: Rooftop Sailors released their **debut album "Kaleidoscope" on 5 November 2021.** After the success of their debut LP, 2023 saw the band release 5 singles from their next record and made it into daily rotation on Swiss Radio SRF3 with their signature single **NEW HIGH**, among others.

Their second album **"RETROSLAVE"** (release on 1 March 2024) elevates their hard-hitting yet refined attitude to fresh and intoxicating new heights. Combining disco feel with savage six string riffage, the band's latest work encapsulates their unparalleled in-your-face attitude, be it on tape or stage.
